We have also adopted and developed policies, procedures and guidelines to foster compliance with the Pharmaceutical Research and Manufacturers of America *Code on Interactions with Healthcare Professionals*.

Servier Pharmaceuticals has established a specific annual, aggregate dollar limit of \$2000 on gifts, promotional materials, items or activities that the Company may give or otherwise provide to an individual healthcare professional in California (“Annual Limit”)¹. We also have internal processes in place to help monitor for compliance with the Annual Limit.

The following are **excluded** from the Annual Limit:

- Drug samples given to physicians and healthcare professionals intended for free distribution to patients.
- Financial support for independent continuing medical education forums.
- Financial support for independent health educational scholarships.
- Fair market value payments to healthcare professionals that are made for legitimate professional services provided by a healthcare professional as well as any meals or expenses associated with the healthcare professional’s provision of such services.

Based on a good faith understanding of §§ 119400 - 119402 of the California Health & Safety Code, Servier Pharmaceuticals declares that, to the best of its knowledge and capabilities, it is in compliance with the applicable requirements as of June 28, 2019.
